

The Arts – Art, Music, Drama.

| Intent | Implement | Impact |
|---|---|---|
| <p>For our learners to become confident, creative, healthy people, who are able to express and evaluate their individual interests, thoughts, emotions and ideas through all or any art, design, music, drama and technology medias – in order to live a sustainable and creative life while understanding the wonderful world around them.</p> | <p>Through the small steps that have been developed in each area (which may be linked to the termly school topic) and by consistently encouraging children to express their own ideas, emotions and thoughts creativity within school and their own lives.</p> <p>By teaching children about artists, designers, musicians, actors, theatre, film and various movement across all the Arts from a range of traditional and modern cultures and countries to enable the individuals to learn and grow as artists within the world.</p> <p>To experience and learn skills and knowledge that will be revisited often to ensure that as much as possible the learning has gone into the long-term memory and the children are able to use the skills and knowledge throughout their lives.</p> | <p>The impact will be confident, independent children who embrace their creativity and individuality: who have developed a broad transferrable set of skills; a wide knowledge and understanding of the arts and a resilience to persevere to enable the individual to express themselves through a media of their choice to become a balanced, brave and civilised citizen of the world.</p> |
